DETAILED ACTION

Election/Restrictions

1. Claims 6-9 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim.

Applicant timely traversed the restriction (election) requirement in the reply filed on 2/23/05.

The species of Figures 1-4 does not include a “means to extend and retract” as set forth in claims 6-9.

2. Applicant's election with traverse of Figures 1-4 in the reply filed on 2/23/05 is acknowledged. The traversal is on the ground(s) that the feature in Figures 1-4 and Figures 5-8 concerning manual or motorized retraction of the umbrella is not a patentably distinct feature. This is not found persuasive because the species have additional features that differ besides the manner of extension and retraction that are considered by the examiner to result in the species still being patentably distinct. For example, in Figures 1-4, the use of brackets attached to the vehicle for selectively mounting the harness and umbrella is not disclosed for the species of Figures 5-8 and the sun roof feature in the species of Figures 5-8 is not disclosed for the species of Figures 1-4.

The requirement is still deemed proper and is therefore made FINAL.

Art Unit: 3612

3. This application contains claims 6-9 drawn to an invention nonelected with traverse in Paper No. 2/23/05. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Ex Parte Quayle

4. This application is in condition for allowance except for the following formal matters:

Drawings

A. The drawings are objected to because the lead lines in Figure 3 used with reference numeral 10 are not pointing to the brackets mounted to the roof as set forth in the specification. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet"

Art Unit: 3612

pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

B. The disclosure is objected to because of the following informalities: On page 5, line 13, and page 6, line 1, the description of the umbrella as having dimensions to “completely cover” the windshield is misleading and misdescriptive in that as seen in the figures only a portion of the windshield is covered by the umbrella.

Appropriate correction is required.

C. The amendment filed 8/3/04 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The list of materials on page 6, lines 17-19, with the exception of “polymers” is not supported by the originally filed application papers. Applicant is required to cancel the new matter in the reply to this Office Action.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 3612

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

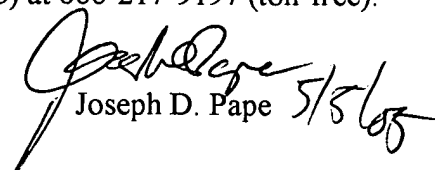

5. Claims 10 and 11 are allowed.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited reference generally relate to the species of Figures 1-4.
